Single Combustion Test Sample Installation Instructions:

2, installation sample size for the long wing: 1000mmx1500mm, short wing: 500mmx1500mm.

Note: 1. Item 12 Testing location: Yutai Industrial Park, Yutian County, Tangshan City, Hebei Province;

the combustion performance test results are related to the performance of the sample under specific conditions; The test results can not be used as the only basis to evaluate the potential fire hazard of the product under actual use conditions.

Conclusion of this report

<sup>1,</sup> the sample is installed in accordance with the provisions of GB / T 20284-2006;
